

Library

The library was established along-with the establishment in order to meet the academic and research needs of the Students, Research Scholars and the Teachers. The Library provides books, journals as well as current information on various topics to fulfill the need of the various components of the institute. The library facilitates research and higher learning by providing books, journals and other documents to the teachers, scholars and students. The location of the library is at the 2nd floor of the institute building and has built up a rich collection on all branches of Management. Library LAN has become a part of campus wide Network, which has made it possible for the students to access information. There is a Library Committee to regulate Policy, Planning, Process and all the activities of the library. It renders instructions regarding management of funds for the functioning of the departmental library system.
