Stock Mind is a program where the BBA students are given an idea on how to trade in stock market. The students are given an id and password by which they can trade virtually. Winners are declared on the basis of the trading done by them for the next 15 days. The student who creates the highest portfolio value is declared as the winner. This starts with the college level and goes till the National level. Interested faculty members who have notion to have an idea of stock market and trading also participate in the event.
