Syllabus for BBA Admission Batch 2022

5th Semester Syllabus for BBA Admission Batch 2022

Sl.	Subject Type	Code	Subject Name	Credit/Point/Number
9.		IFC	Industry & Foreign Certification (IFC)	At least 3 certificates need to be earned in each semester. Total min 15 certificates required in 3 years program
10.		MAR581	Mandatory Additional Requirements (MAR)	As per University norms
11.	MOOCs 5	MOOCs	At least 1 MOOCs course from Swayam Platform	15 credits need to be earned in 3 years program

BBA 3rd Year Course Structure: 2022-2025 session – 5th Semester
3 years Programme
(Under the Maulana Abul Kalam Azad University and Technology)

Strategic Management

Credit: 4

Lecture Hours: 40

Subject Code: BBABB501

[Study Material](#)

[MIT Open courseware](#)

[NPTTEL](#)

[LinkedIn Learning](#)

COURSE OBJECTIVES:

1. To enable the students to understand the fundamental concept of strategy in business.
2. To enable the students to understand the fundamental techniques of formulating strategy.
3. To enable the students to understand the relevance of strategy to sustain in a competitive scenario.
4. To understand the logic of designing an effective strategy for effective growth of a corporate.

COURSE OUTCOMES:

- 1: Students can examine the fundamentals of strategic issues of business.
- 2: Students can assess the various techniques of business.
- 3: Students can analyze the importance and logic of formulation of the business strategy.
- 4: Students can apply and implement strategy in corporate for business growth.

Subject Name: Data Analytics Skills for Managers

Credit: 4 Lecture Hours: 40

Subject Code: BBABB502

Pre-requisite: Basic knowledge of Mathematics and Statistics

Relevant Links:

[Study Material](#)

[Coursera](#)

[NPTEL](#)

[LinkedIn Learning](#)

[MIT Opencourseware](#)

COURSE OBJECTIVES:

1. To enable the students to understand fundamental concepts, terms and terminologies involved in data analytics, and to relate themselves with importance, role and application of data analytics in business domain.
2. To help the students understand data collection and data pre-processing strategies through the incorporation of case studies.
3. To enable students to identify three core types data analytical techniques i.e. exploratory, descriptive, and causal along with its nature and application.
4. To enable the students classify the application of appropriate analytical techniques in appropriate situation.

COURSE OUTCOMES:

CO1: Students will learn the basic & fundamental concepts of Data Analytics and its applications in different domains of business.

CO2: Students will be able to understand the intricacies of Data Analytics such as how it works, different statistical methods of Data Analytics, identify three core types of data analytical techniques i.e. exploratory, descriptive, and causal along with their application, how to deal with the critical issues related to data.

CO3: Students will be able to apply their knowledge of Data Analytics in dealing with the contemporary real world business problems effectively.

CO4: Students will be able to analyze business problems involving Data Analytics.

CO5: Students will be able to evaluate real world data to take efficient business decisions.

CO6: Students will be able to create newer ideas while dealing with the issues of Data Analytics and will also be able to ensure their overall development.

Course content:

Module Number	Topic	Sub-topics		Mapping with Industry and International Academia	Lecture Hours	Corresponding Lab Assignment / Case-Study
M1	Introduction to Data Analytics	Data, Information, Knowledge, and Wisdom; Types of Data – Qualitative- Nominal-Ordinal and Quantitative- - Continuous – Discrete; Dimensions of Data Quality- Accuracy – Completeness – Consistency – Timeliness – Uniqueness – Validity; Data Science; Big Data –Sources, Types of Big Data–Structured – Unstructured – Semi-structured – Metadata; Characteristics of Big Data –	Big Data Fundamentals Concepts Drivers and Techniques: Thomas Erl, WajidKhattak and Paul Buhler-Prentice Hall Chapter 1	International Academia: https://ocw.mit.edu/courses/24-910-topics-in-linguistic-theory-laboratory-phonology-spring-2007/resources/lec9_1_stats/	10	1. Assignments on real life data processing. 2. Assignments on Big data. 3. Assignments on application of data analytics in business.

		Volume – Velocity – Variety – Veracity – Value; Data Analytics – Descriptive – Diagnostic – Predictive – Prescriptive; Applications of Data Analytics in Business – Production and Inventory Management – Sales and Operations Management – Finance and Investment – Marketing Research – Human Resource Management.				
M2	Descriptive Statistics	Measures of Central Tendency, Measures of Dispersion, Skewness and Kurtosis	<u>STATISTICAL METHODS - N G Das - McGraw Hill Education</u> Chapters 5,6,7	International Academia: https://ocw.mit.edu/courses/15-310-managerial-psychology-laboratory-spring-2003/resources/recitation08april1103simplestatistics1/	10	1. PO & PI Mapping:

PO1: Assessment of Choices	
Students will develop the capability to assess alternate managerial choices and come up with optimal solutions.	
Competency	Indicators
1.1 Demonstrate competencies in Business Construction Model & Decision- Making Model	1.1.1. Ability to take up analytical approach for problem solving,
1.2 Demonstrate competencies in evaluation of each of the alternatives	1.1.2. ability to take into consideration minute details and factors that influences a business.
	1.2.1 Ability to weigh the pros and cons of each of the alternatives or options available to a functional area of a business.
PO 2 : Identification of the Nature of a Problem Area	
Students will be able to apply their conceptual understanding of marketing, finance and human resources in the real world.	
Competency	Indicators
2.1. Demonstrate an ability to identify an area that requires problem solving.	2.1.1 Ability to contribute towards problem solving methods,
2.2 Demonstrate an ability to assess the business environment and understand their impact on the business.	2.1.2 Understanding a problem or issue belongs to which of the specialized areas of data analytics- Descriptive, Diagnostic, Predictive and Prescriptive.
	2.2.1 To be able to identify the different factors that influences the business.
PO 3: Decision Making Skills:	
Students will develop decision making skills with the help of analytical and critical thinking ability.	
Competency	Indicators
3.1 To be able to demonstrate the different aspects that can get influenced by the decision taken within the business.	3.1.1 Capability of suggesting a decision after proper assessment
3.2 To be able to demonstrate the optimal solution or close to an optimal solution to a given managerial problem.	3.2.1 Reaching to a solution and evaluating it after observing the changes (Case study method can be implemented)

PO6: Integration of Functions: Students will be able to integrate functional areas of management for planning, implementation and control of business decisions.	
Competency	Indicators
6.1 Demonstration of the ability to identify gaps in a business strategy, and to be able to close these gaps.	6.1.1. Continuation of Professional development and observation skills,
6.2 Demonstrate the identification of changing trends in a business and operation of the functional areas accordingly.	6.1.2. Using rational approach towards an issue. 6.2.1. Ability to study the changes in preferences of customers.
PO 7: Deployable Skill set: Students will develop deployable skills parallel to the chosen functional/ specialized area	
Competency	Indicators
7.1 Demonstrating the ability to identify the nature of a problem appearing during the course of business.	7.1.1 Acknowledgement of the existence of a problem
7.2 Demonstrating the ability to apply the learned skill set as when required	7.1.2. Ability to implement the required knowhow as when necessity arises.

Subject Name: Consumer Behavior Credit: 6

Lecture Hours: 60

Subject Code: BBAMM503

Pre-requisite: Basic Knowledge of Marketing Management

Relevant Links:

[Study Material](#)

[Course Era](#)

[NPTEL](#)

[LinkedIn Learning](#)

COURSE OBJECTIVES:

1. To make the students understand the fundamental concepts of consumer behavior and its various disciplines.
2. To equip students with knowledge of various models and frameworks to help understand consumer buyer behavior
3. To help students to analyze consumer's behavior and use them in designing marketing strategies
4. To enable the students to understand the relevance of organizational buying behavior and how it is different from consumer behavior.

COURSE OUTCOMES:

- CO1: Students would be proficient and knowledgeable about the various disciplines contribution in understanding buyer behavior in a holistic manner from both individual & group perspectives
- CO2: Students would be equipped with knowledge of various models and frameworks to help understand consumer buyer behavior and align the knowledge with formulation of appropriate marketing strategies under various micro & macro factors.
- CO3: Students would be able to analyze consumer's behavior and use them in designing marketing strategies and in enhancing the effectiveness of marketing programs by applying the concept of diffusion of innovation
- CO4: Students would be able to develop & apply the knowledge of and skill in organizational buying behavior so that they can differentiate it from consumer buying behavior and apply that concept in framing plans & programs for organizational buyer.

COURSE OBJECTIVES:

1. To make the students understand the importance of Planning in the field of Human Resource Management and to study techniques of HR-forecasting.
2. To help students understand the value of Human Resource Information System, Job Analysis, HR Audit, HR Accounting and enable them to understand their importance.
3. To introduce the fundamentals of Career Planning, Succession Planning and their importance in organizational and personal life.
4. To understand the logic of designing an effective Human Resource Planning (HRP) and to emphasize the need for applying their knowledge of HRP in the different fields of Human Resource Management.

COURSE OUTCOMES:

CO 1: Learn the fundamental concepts of Human Resource Planning (HRP) and its importance in the practical world.

CO 2: Understand the value of identifying, defining, and solving Human Resource Planning related problems with the concept of HRIS, HR Audit, HR Accounting and other areas.

CO 3: Be able to apply the knowledge of HRP in solving the contemporary human Resource Management related issues and will get some wider exposure with respect to Career Planning and Succession Planning.

CO 4: Be able to analyze the different methods and techniques of HR Planning while solving real life problems and will be able to achieve the goal of their overall development.

Module number	Topic	Sub-topics	Mapping with Industry and International Academia	Lecture Hours	Corresponding Lab Assignment	Text book Chapter No.
1	Basic Concept & Forecasting	<p>Basic Concept – Brief idea about Human Resource Planning or HRP, Importance of HRP, Objectives of HRP, Process of HRP, Responsibility for HRP, Limitation of HRP, how to do Effective HRP, Case Study</p> <p>Forecasting – Concept of forecasting, Types of forecasting, Techniques of forecasting - Trend Analysis, Work Load Analysis, Markov Analysis, Manpower Gap Analysis, Job Analysis, Manpower Inventory Analysis, Staffing Table, Replacement Chart, Practical Problem Solving</p>	<p>International Academia: MIT.Edu</p> <p>Industry Mapping: Aligning HR planning with organizational strategy, utilizing trend analysis and workload analysis for future staffing needs, Identifying, and addressing manpower gap</p>	10	Case Study on concepts of a real-world scenario to understand the HRP process and its effectiveness	Chapter-5 (Human Resource Management Text and Cases: V.S.P. Rao, Excel Books)
2	Human Resource Information System, Job Analysis & Measurement of Human Resource Planning	<p>Human Resource Information System – Concept and Procedures, Case Study and Preparation of HRIS for an organization</p> <p>Job Analysis - Job Analysis - Concepts, Process, Job Description, Job Specification, Limitations; Job Evaluations – Concepts, Methods, Limitations, Case Study</p> <p>Measurement of Human</p>	<p>International Academia: MIT.Edu</p> <p>Industry Mapping: Developing and managing HR information systems, conducting job descriptions, specifications, and evaluations, Measuring the effectiveness and efficiency of HR practices</p>	18	Case Study on concepts of HRIS for an organization and perform a job analysis with job descriptions and evaluations	Chapter-4 (Human Resource Management Text and Cases: V.S.P. Rao, Excel Books)

		Resource Planning- HR Audit and HR Accounting				
3	Career Planning & Succession Planning	<p>Career Planning – Concept of Career Planning, Career Anchor, Career Path, Career Goal, Career Development and Career counseling, Career Stages, how do people choose career, Career Planning vs. human Resource Planning, Process of Career Planning</p> <p>Succession Planning – Concept of succession planning, Replacement Chart</p>	<p>International Standards MIT.Edu</p> <p>Industry Mapping: Structuring career paths and development plans, preparing for future leadership needs, Providing guidance to employees for career progression</p>	10	Case Study on concepts of career development plan and a succession planning chart for a hypothetical organization	Chapter-11 (Human Resource Management Text and Cases: V.S.P. Rao, Excel Books)
4	Application of HRP in Different Areas	Application of HRP in Different Areas – Recruitment, Redundancy, Training, Career Plan	<p>International Standards MIT.Edu</p> <p>Industry Mapping: Applying HRP to attract and develop talent, Handling workforce reduction effectively, Aligning career plans with organizational needs</p>	10	Case Study on concepts of how to apply various HR functions such as recruitment, redundancy, and training in a given scenario	Chapter-6,7 (Human Resource Management Text and Cases: V.S.P. Rao, Excel Books)

Submitted by Prof. Dr. Saikat Chakrabarti & Prof. Manali Chowdhury
